PERSONAL SUMMARY

As a dynamic and passionate junior front-end developer, I bring over a year of focused experience in developing user-centric, responsive websites and applications using React. My foundation in HTML, CSS, and JavaScript, coupled with a profound expertise in React, enables me to create intuitive and efficient user experiences. I have a proven track record of leveraging React's component-based architecture to build reusable UI components and implement state management effectively, primarily through Redux and Context API.

My experience extends to integrating RESTful APIs and using tools such as Webpack, Babel, and npm to streamline development workflows. Adept at collaborating in agile development teams, I excel in fast-paced environments where I can contribute to continuous learning and code improvement. My dedication to mastering front-end development is evident through my contributions to project successes and my ongoing engagement with the latest industry trends and technologies. I am eager to apply my skills and grow further within a dynamic team, bringing innovative solutions to life.

KEY SKILLS

- Equipped with a solid foundation in web technologies, including languages such as HTML, CSS, Javascript, Typescript, Python, and C++.
- Well-versed in utilising libraries and frameworks like React, alongside a proficient understanding of design tools including Figma and Canva.
- Keen ability in leveraging testing tools such as React Testing Library, Vitest, and Jest to ensure software reliability and performance.
- Experienced in navigating version control systems, with a particular focus on Git and GitHub, complemented by a strong command over package managers like npm and yarn.
- Familiar with a variety of development tools and platforms, including Firebase, SASS/LESS, the shadcn-library, Bootstrap, Redux/Redux-Toolkit, VITE, Webpack, Prettier, and ESLINT, enabling the creation of scalable, maintainable, and high-quality web applications.
- Exceptional at time management and prioritisation, adept at handling multiple projects simultaneously while maintaining high-quality standards.
- Commitment to fostering a collaborative work environment, prioritising continuous improvement, and leveraging AI to enhance productivity and efficiency.

RELEVANT EXPERIENCE

April 2022 – Present Web Developer and Trustee The Reading Corner

- Designed, built, and implemented landing pages and website.
- Used front end technologies to implement a brand image strategy.
- Collaborated with marketing & social media teams to monitor trends and create relevant and exciting content.
- Engaged with team meetings to discuss strategies to bridge the literacy gap for disadvantaged children and young adults.

June 2022 – August 2023 Clinical Respiratory Physiologist Harefield Hospital / East Surrey Hospital

- Managed large complex datasets to curate valid and high-quality results.
- Engaged with patients in highly stressful situations and motivated them to give their best in extremely demanding testing protocols.
- Worked 1 to 1 with patients to assess a variety of lung and sleep-based diseases.
- Ensured adequate documentation and communication with colleagues to develop a long history of high quality care for all patients.

EDUCATION

- **Postgraduate Degree in Physiology**
University of Brighton, September 2020 - May 2022
- **Undergraduate in Sport and Exercise Science**
University of Brighton, September 2017 - May 2020
- **A-Levels**
D* in IT, D* in Business Studies, B in English

PERSONAL INTERESTS

- Using spare time as a currency to learn, I am currently pursuing Google's UX Design Course, furthering my Spanish to better communicate with my partner's family and trying to improve my chess knowledge.
- Heavily involved in a lifetime of exercise, martial arts, football, ultimate frisbee and gym-based training.
- Training for a second half marathon in October 2024.
